FINANCE AND TRADE.

FINANCE.

OFFICE OF THE DAILY APPEAL, The local money market is easier, so far as the banks are concerned, but we can hardly say as much of the general business community. The latter still feel much inconvenience from the prevailing stringency. To be sure there has been an improvement within the past week, but not of such volume as to make the heart glad or the purse heavy.

The movement in the staple puts a considerable amount of cotton bills on the market, and, so far as we can learn, there is no trouble experienced in moving the staple. New York bills are taken at 1/4 discount, while on outside points % is very lucid description of the railroad progenerally the rate. The selling rate is par as a rule, but exceptional cases are made

There is but little movement in Stocks or Bonds. City Bonds were sought for at half barrels \$10 50. Beer, half barrels, \$11; 4416 to 45c, but none could be found. The feeling is decidedly better than some days ago, and we should not be astonished to hear of an advance at an early day.

Gold comes in slowly. The demand exceeds the supply. This state of affairs will continue for some months, now that cotton is coming in. Very many planters invest their surplus funds in cash at the commencement of the season, and sell it again, as their necessities require, before the next crop comes in. Dealers buy at New York rates and sell at 1 to 2c ad-

There were no sales of old Tennese bonds in New York to-day, and sales of new are quoted at 55c. Dovernments opened strong, with an
